SCRIPTURE TRACK

Week 10 Notes:

Why is the crucifixion so important?

- The punishment for sin is <u>death</u>
- Jesus took our punishment.
- Jesus gave <u>ALL</u> of himself

Why couldn't Jesus have just been beaten for us (as Pilot tried)?

• The argument that Jesus didn't die <u>undermines</u> the seriousness of sin and <u>negates</u> the power of the Gospel

Why spend time studying the death and resurrection for apologetics?

- The existence of Jesus is an undisputed historical fact.
- 99% of skeptics hold one of two views on the resurrection
 - 1. Theory #1 Jesus <u>didn't</u> die on the cross
 - 2. Theory #2 The disciples stole the body and made up the story

Theory #1 – Jesus didn't die

Where does this come from?

- <u>Quran</u> "Jesus only appeared to die"
- The number of people who saw Jesus after his resurrection is overwhelming
- All 4 gospels and I Cor. 15 record specific people

Is this medically possible?

The independent American Medical Association doctors concluded that it was <u>impossible</u> for Jesus to survive crucifixion.

Roman executioners were <u>experts</u> in death.

SCRIPTURE TRACK

Conversions of people post-resurrection:

James (son of Joseph and Mary)

- Jesus' brothers did not <u>believe</u> in him early (Mark 3:21)
- Jesus' brothers were <u>absent</u> at the crucifixion (John 19:26)
 - Presumably because they still didn't believe in him
- After the <u>ascension</u> his brothers were with the Apostles (Acts 1:14)
 - Not much time between the crucifixion and the Acts 1:14
- James was counted as an <u>apostle</u> (Galatians 1:19, Acts 12:17)

Saul/Paul

- Saw Jesus on the road to <u>Damascus</u> (after ascension)
 - Other men traveling with him heard voice but didn't see
- Became "the apostle to the <u>Gentiles</u>"

Beginning of the Church

The resurrection was the <u>catalyst</u> for the beginning of the church

- Early church was made up of eyewitnesses
- 3000 People on the day of Pentecost (Acts 2)
- Acts 2:32 "and of that <u>WE ARE ALL WITNESSES</u>" (many in the crowd would have witnessed these things)

Problems with Theory #1

- Doesn't account for the ascension
- Doesn't account for conversions <u>after</u> the resurrection
- Isn't medically possible
